SUPPORTING ADULTS WITH PHYSICAL DISABILITIES

Community access team

The community access team provides a high quality, community-based, flexible support programme for adults with physical disabilities.

We are

- a support service that enables you to access and positively engage in community-based activity and maintain or increase your independence in the community

Referrals

An initial referral will be made to us by a social worker or other professional. We will then arrange to visit you at home, assess your needs and agree on how you want us to support you to:

- achieve your goals and
- help you agree a twelve week tailor-made action plan

Some possible areas for skill development and support include:

- Identifying goals and objectives
- Confidence building
- Accessing further education and employment
- Travel training to use buses, the tube and taxis via our accredited travel training programme
- Support to access, use shops, cafes and restaurants.

Key principles of the service:

Being community rather than centre-based

Being time-limited – 12 weeks in the first instance

Being person-centred so that each adult has his or her own tailor-made plan

Referrals to the service are made by social workers or other relevant professionals
